GRIP GUIDE & SIZE CHART

PROGRIP - One of our most recognised deep dimple circular grips giving you excellent control in all weather conditions.

HALF PIPE GRIP - The dimples are inset into a deep hollow giving you the feeling of a smaller bowl allowing you to feel more confident with a size of bowl you didn't think possible.

PREMIER GRIP - A deep oblong shaped grip ensures a confident grasp allowing you to deliver your shot accurately.

CRESCENT GRIP - A half moon surface grip which is not as deep as the ProGrip or Premier Grip.

PLAIN - Plain bowls, without grips, are available to order on Ace, International, Vector VS and Blaze models.

"Did you know there are only 2ozs of a difference between the sizes of Taylor bowls? This small difference ensures you get a precise fit for all different hand sizes. There is no need for half sizes in the Taylor range. In fact many bowlers find, if they need to come down in size, it is often 2 sizes due to such a small difference between them".

Coloured bowls available in heavy weight only.

As a tolerance is allowed during production, this table is for guidance only.
